## Assessment of Psychopathic Personality Disorder (PCL-R/PCL:SV) 7 / 8 December 2009( Session A)

The Psychopathy Checklist Revised (PCL-R) provides a standard methodology for assessing Psychopathy. It is currently viewed as the risk assessment tool for identifying a psychopathic personality disorder. This workshop will review the content and the administration of the PCL:R through various modalities. The Psychopathy Checklist: Screening Version (PCL:SV) was developed for use with non-criminal populations and as a tool to screen for the possible presence of Psychopathy.

## Assessment and Management of Violence using the HCR-20 9 / 10 December 2009 (Session B)

The aim of the Certificated HCR-20 training is to provide delegates with the correct procedure of using the assessment tool, including the use of Risk Scenarios and Case Management plans.

The HCR-20 is a well established procedure that is used, not only for identifying a broad range of risk factors, but also to assist the systematic formulation of risk management strategies. The HCR-20 provides methods for integrating historical risk factors, current clinical factors and future risk management factors thus allowing practitioners to formulate structured risk assessments and management plans.
