ProActive ReSolutions is pleased to present a 3 Day Workshop on the newest version of the world’s leading violence risk assessment instrument, the HCR-20\textsuperscript{V3}, and the only structured professional judgment instrument for assessing medium to longer range risk for violence among youth, the SAVRY. The Workshop is taking place 18-20 November 2015 in Sydney, Australia.

The HCR-20\textsuperscript{V3} and SAVRY are guidelines for comprehensive violence risk assessment and management developed according to the structured professional judgment (SPJ) model that are used in correctional, forensic psychiatric, civil psychiatric, and school settings.

The HCR-20\textsuperscript{V3} was developed to assist violence risk assessment and management with adults. Version 3 of the HCR-20 builds upon the success of Versions 1 and 2, which have been translated into 20 languages and adopted or evaluated in more than 35 countries. Subjected to clinical beta testing and empirical evaluation, Version 3 promises to be even more clinically useful than its predecessors. See the HCR-20 website for more information about Version 3: http://www.hcr-20.com.

The SAVRY was developed to assist in violence risk assessment and management with adolescents. It is used widely around the world, with ongoing studies in Canada, the United Kingdom, the Netherlands, Germany, Singapore, Poland, Sweden, Finland, Norway, Spain, and the United States.

**WHY ATTEND?**

**Develop your skills**
Build your expertise when making decisions about cases that involve violence risk and develop your skills when communicating with others about these cases.

**Implement best practices**
Learn about best practices in assessing and managing violence risk to help you prevent future harm and protect you from liability.

**Network with others**
Strengthen your relationships with other professionals with a shared interest in and responsibility for violence risk assessment and management.

**WHO SHOULD ATTEND?**

The Workshop accommodates varying levels of experience in violence risk assessment and management, from beginner to advanced. It is relevant for diverse professionals including (but not limited to) those in health care, criminal justice, victim services, security, social service, education, and human resources who want to develop their skills assessing and managing youths’ violence risk.

**WORKSHOP INSTRUCTOR**

Dr. Guy is an internationally recognized expert, prolific author, and engaging presenter. She has been involved in developing, implementing, and evaluating risk assessment procedures. She is passionate about providing evidence-based understanding, knowledge and skills about violence risk assessment and management that professionals can apply in practice.
Workshop Overview

Choose the experience you want:

1) Attend Days 1-3 to develop skills in using both the HCR-20\textsuperscript{V3} and SAVRY
2) Attend Days 1 and 2 to learn how to use the HCR-20\textsuperscript{V3}
3) Attend Days 1 and 3 to learn how to use the SAVRY

**DAY 1**

Principles of violence risk assessment and management

- Discuss key concepts and general principles related to violence risk assessment and management
- Learn the administration steps in the structured professional judgment model with a focus on developing formulations of violence risk and risk management strategies
- Learn about principles of violence risk management, focusing on scenario planning approaches

**DAY 2**

Assessing and managing risk for general violence with adults

- Learn to administer the HCR-20\textsuperscript{V3}
- Complete a practice case using the HCR-20\textsuperscript{V3}
- Discuss issues related to risk communication and report writing using the HCR-20\textsuperscript{V3}

**DAY 3**

Assessing and managing risk for general violence with adolescents

- Learn about major developmental concepts relevant to violence risk assessment and management with youth
- Learn to administer the SAVRY
- Complete a practice case using the SAVRY
- Discuss issues related to risk communication and report writing using the SAVRY

**Daily Schedule**

The Workshop runs from 0900 to 1630 each day, with morning and afternoon tea and a lunch break from 1200 to 1300.

Registration is from 0830 to 0900 on the first day of the Workshop.
Instructor

Laura works as a Threat Assessment Specialist at ProActive ReSolutions Inc. Prior to that, she was on faculty in the Department of Psychiatry at the University of Massachusetts Medical School from 2009 to 2015. Laura obtained her PhD in clinical (forensic) psychology at Simon Fraser University in British Columbia, Canada. Her research and clinical interests focus on forensic assessment, the role of mental disorder for violence risk, and violence risk assessment and management with adolescents and adults. She is a licensed clinical psychologist, and has extensive experience conducting violence risk assessments in numerous jurisdictions throughout Canada and the United States and in various settings, including forensic psychiatric hospitals, prisons, workplaces, post secondary institutions and other community settings. Laura also consults with and provides technical assistance to agencies implementing risk assessment protocols. She is the (co) author of over 150 articles, chapters, reports, manuals, and presentations and has facilitated numerous workshops on violence risk assessment and management around the globe.

Our Company

ProActive Resolutions’ Threat Assessment Specialists are highly trained and experienced, with backgrounds in fields such as forensic psychology, policing, law, social work, and business management. They have delivered training for mental health, law enforcement and other professionals around the world, on every continent except Antarctica. They have been involved in developing, implementing, and evaluating threat assessment procedures.

Our products not only meet standards for best practice, they set those standards. The products developed by our Threat Assessment Specialists have been translated into dozens of languages and are among the most widely used tools in the field. In addition, we offer the only threat assessment training program that has been subjected to systematic empirical evaluation, the results of which have been peer reviewed and published in a scientific journal.

Our company has global reach. From offices in Australia, Canada, and the United States, we have serviced the world for more than 15 years.
